

MediAssist Staff Handbook

A Welcome Guide for Every MediAssist Employee

MediAssist Health Network

Human Resources Department

Document ref: HR-HBK-001 · Version 6.0

Applies to: All staff, all campuses

1. About MediAssist Health Network

MediAssist Health Network was founded in **2008** in Hyderabad with a single 90-bed hospital and a simple conviction: that high-quality, ethical healthcare should be accessible to the communities it serves. Over the years that single hospital has grown into one of South and West India's most respected mid-sized private hospital groups.

Today the Network operates **12 hospitals** across Telangana, Karnataka and Maharashtra, supported by more than **40 clinics** and diagnostic centres. We are a family of approximately **8,500 staff** — doctors, nurses, technicians, billing and administrative colleagues — caring for over two million patient visits every year. Our registered head office remains in Hyderabad, Telangana.

Welcome

This handbook is your primary onboarding reference. Keep it accessible during your first 90 days. Where this handbook and a specific policy document differ, the specific policy document prevails.

2. Organisational Structure

MediAssist follows a clear governance and reporting hierarchy. Understanding where you sit in this structure helps you know who to approach for approvals, escalations and support.

The reporting hierarchy runs through six levels:

- **Board of Directors** — governance, strategy and statutory oversight.
- **Chief Executive Officer (CEO)** — network-wide operations and performance.
- **CMO / CTO / CFO** — clinical, technology and finance leadership respectively.
- **Department Heads (HODs)** — management of clinical and non-clinical departments.
- **Senior Staff** — consultants, senior nurses and unit in-charges.
- **Junior Staff** — resident doctors, staff nurses, technicians and executives.

Text-based org chart

Board of Directors

■ ■ CEO

■ ■ Chief Medical Officer (CMO) ■ Department Heads ■ Senior Clinical Staff ■ Junior Clinical

Staff

■ ■ Chief Technology Officer (CTO) ■ IT & Biomedical Heads ■ Engineers & Technicians

■ ■ Chief Financial Officer (CFO) ■ Billing & Accounts Heads ■ Billing Executives

3. Our Values

Patient First

Every decision is measured against one question: is this good for the patient? Clinical and non-clinical staff alike are expected to place patient safety, dignity and comfort ahead of convenience.

Integrity

We are honest in our clinical records, our billing, and our dealings with patients, insurers and each other. There is no acceptable shortcut around the truth.

Clinical Excellence

We practise evidence-based medicine, follow our Standard Treatment Protocols, and continually audit our outcomes against national benchmarks.

Continuous Learning

Medicine and technology never stand still. We invest in CME, certifications and structured on-the-job training for every grade of staff.

Team Respect

A hospital runs on teamwork. We treat colleagues across every department and grade with courtesy, and we have zero tolerance for harassment or abuse.

4. Facilities & Campuses

MediAssist's flagship campuses each carry a clinical focus. New hires are usually assigned to one home campus but may be rotated for training.

- **MediAssist Hyderabad Central** (Hyderabad, Telangana) — multi-speciality flagship with emergency services.
- **MediAssist Secunderabad** (Secunderabad, Telangana) — cardiac sciences and critical care.
- **MediAssist Bengaluru Onco Centre** (Bengaluru, Karnataka) — oncology and radiation therapy.
- **MediAssist Pune Speciality** (Pune, Maharashtra) — orthopaedics and mother-and-child care.
- **MediAssist Mysuru Clinic Hub** (Mysuru, Karnataka) — day-care, dialysis and outpatient services.

5. Working Hours & Shifts

Working patterns differ between administrative and clinical staff.

- **Standard office hours** (administrative, billing, HR, IT): 9:00 am – 6:00 pm, Monday to Saturday, with a one-hour lunch break.
- **Clinical staff** work three rotating shifts: **Morning 7:00 am – 3:00 pm**, **Afternoon 3:00 pm – 11:00 pm**, and **Night 11:00 pm – 7:00 am**.

Weekly off policy

- Administrative staff: one fixed weekly off (Sunday) plus alternate Saturdays.
- Clinical staff: one rotational weekly off scheduled by the unit in-charge, ensuring no employee works more than six consecutive days.

6. Staff ID & Access Cards

- **Issuance:** Your photo ID and RFID access card are issued by the Facilities desk on day one, against a signed acknowledgement.
- **Lost card procedure:** Report a lost card to the Facilities desk and IT Security *immediately*. The card is deactivated within 30 minutes; a replacement is issued within two working days against a ₹250 replacement fee.
- **Access zones by role:** Cards are zoned — clinical areas (ICU, OT, wards) are restricted to clinical staff and authorised personnel; server rooms to IT; pharmacy stores to pharmacy staff. Never lend your card or tailgate.

7. Dress Code

Uniforms identify roles at a glance and must be worn with a visible photo ID:

- **Doctors** — white coat over blue scrubs.
- **Nurses** — green scrubs, closed-toe footwear, hair tied back.
- **Technicians** — grey uniform with safety footwear where required.
- **Administrative & Billing staff** — formal business attire.

8. Grievance Redressal

MediAssist is committed to resolving staff grievances fairly and promptly.

- Raise a grievance with your immediate supervisor first; if unresolved or inappropriate, approach the HR Business Partner for your campus.
- Every formal grievance is **acknowledged within 3 working days**.
- Resolution is targeted **within 21 days** of acknowledgement; complex cases are communicated with an interim status.
- Grievances may be raised confidentially; retaliation is itself a disciplinary offence.

9. IT & Systems Access

- **Requesting access:** Raise a request on the IT Service Desk portal, approved by your HOD. Access is provisioned on the principle of least privilege.
- **Acceptable use:** MediAssist systems are for clinical and business use. No unauthorised software, no personal data storage on hospital devices, no circumventing security controls.
- **Password policy:** Minimum **12 characters** with mixed case, a number and a symbol; rotate **every 90 days**; never share or reuse across systems. Multi-factor authentication is mandatory for clinical and billing systems.

Security

Never share your login credentials, even with a colleague or supervisor. Suspected account compromise must be reported to IT Security within 2 hours.

10. Probation & Confirmation

All new permanent employees serve a probation period during which performance, conduct and fit are assessed.

- **Probation period:** 6 months for clinical staff; 3 months for non-clinical staff.
- Probation may be extended once, by up to 3 months, with documented feedback.
- **Confirmation** is issued in writing on successful completion; benefits such as study leave accrue from the confirmation date.
- During probation the notice period for either party is 15 days.

11. Training & Professional Development

- Every clinical employee completes **mandatory induction training** in BLS (Basic Life Support), infection control, fire safety and POSH within 30 days of joining.
- Doctors and nurses must accrue **Continuing Medical Education (CME)** credits annually; study leave (5 days/yr) supports approved certification courses.
- Technicians undergo equipment-specific certification before independent operation of any biomedical device.
- An annual training calendar is published on the HR Portal; nominations are routed through HODs.

12. Emergency Codes

MediAssist uses a standard colour-code system across all campuses. Every employee must memorise these codes irrespective of role:

- **Code Blue** — adult cardiac or respiratory arrest. Dial 7777; start BLS if trained.
- **Code Pink** — infant or child abduction. Secure exits and alert security.
- **Code Red** — fire. Raise the alarm and evacuate via fire exits; never use lifts.
- **Code Orange** — hazardous material spill. Cordon the area; call facilities and safety.
- **Code Grey** — violent or aggressive person. Call security and ensure your personal safety.
- **Code Yellow** — internal or external disaster (mass casualty). Report to your muster point.

13. Key Contacts

- **HR Helpdesk** — 1800-180-4500 (toll-free) · hr.help@mediassist.in
- **IT Support** — ithelp@mediassist.in · ext. 2200
- **Facilities Desk** — facilities@mediassist.in · ext. 1100
- **Medical Director's Office** — md.office@mediassist.in · ext. 1000
- **POSH Committee** — posh@mediassist.in
- **Emergency (internal)** — dial 7777 from any hospital extension.
